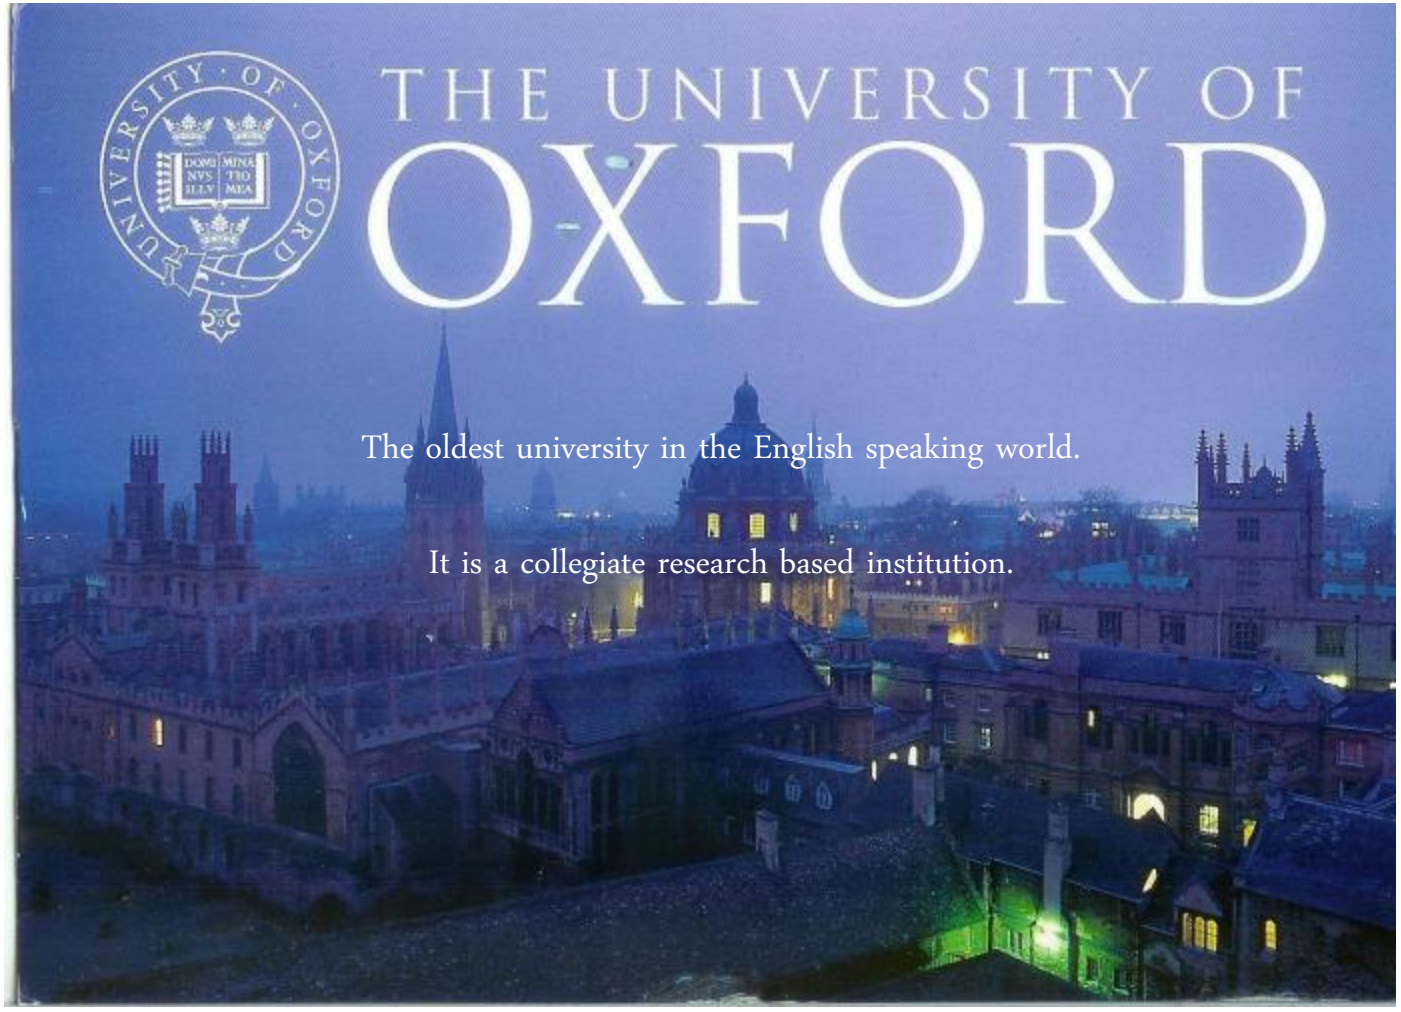
The University of Oxford

Overview

OXFORD
UNIVERSITY PRESS



Oxford University Press (OUP)

Our mission

OXFORD UNIVERSITY PRESS

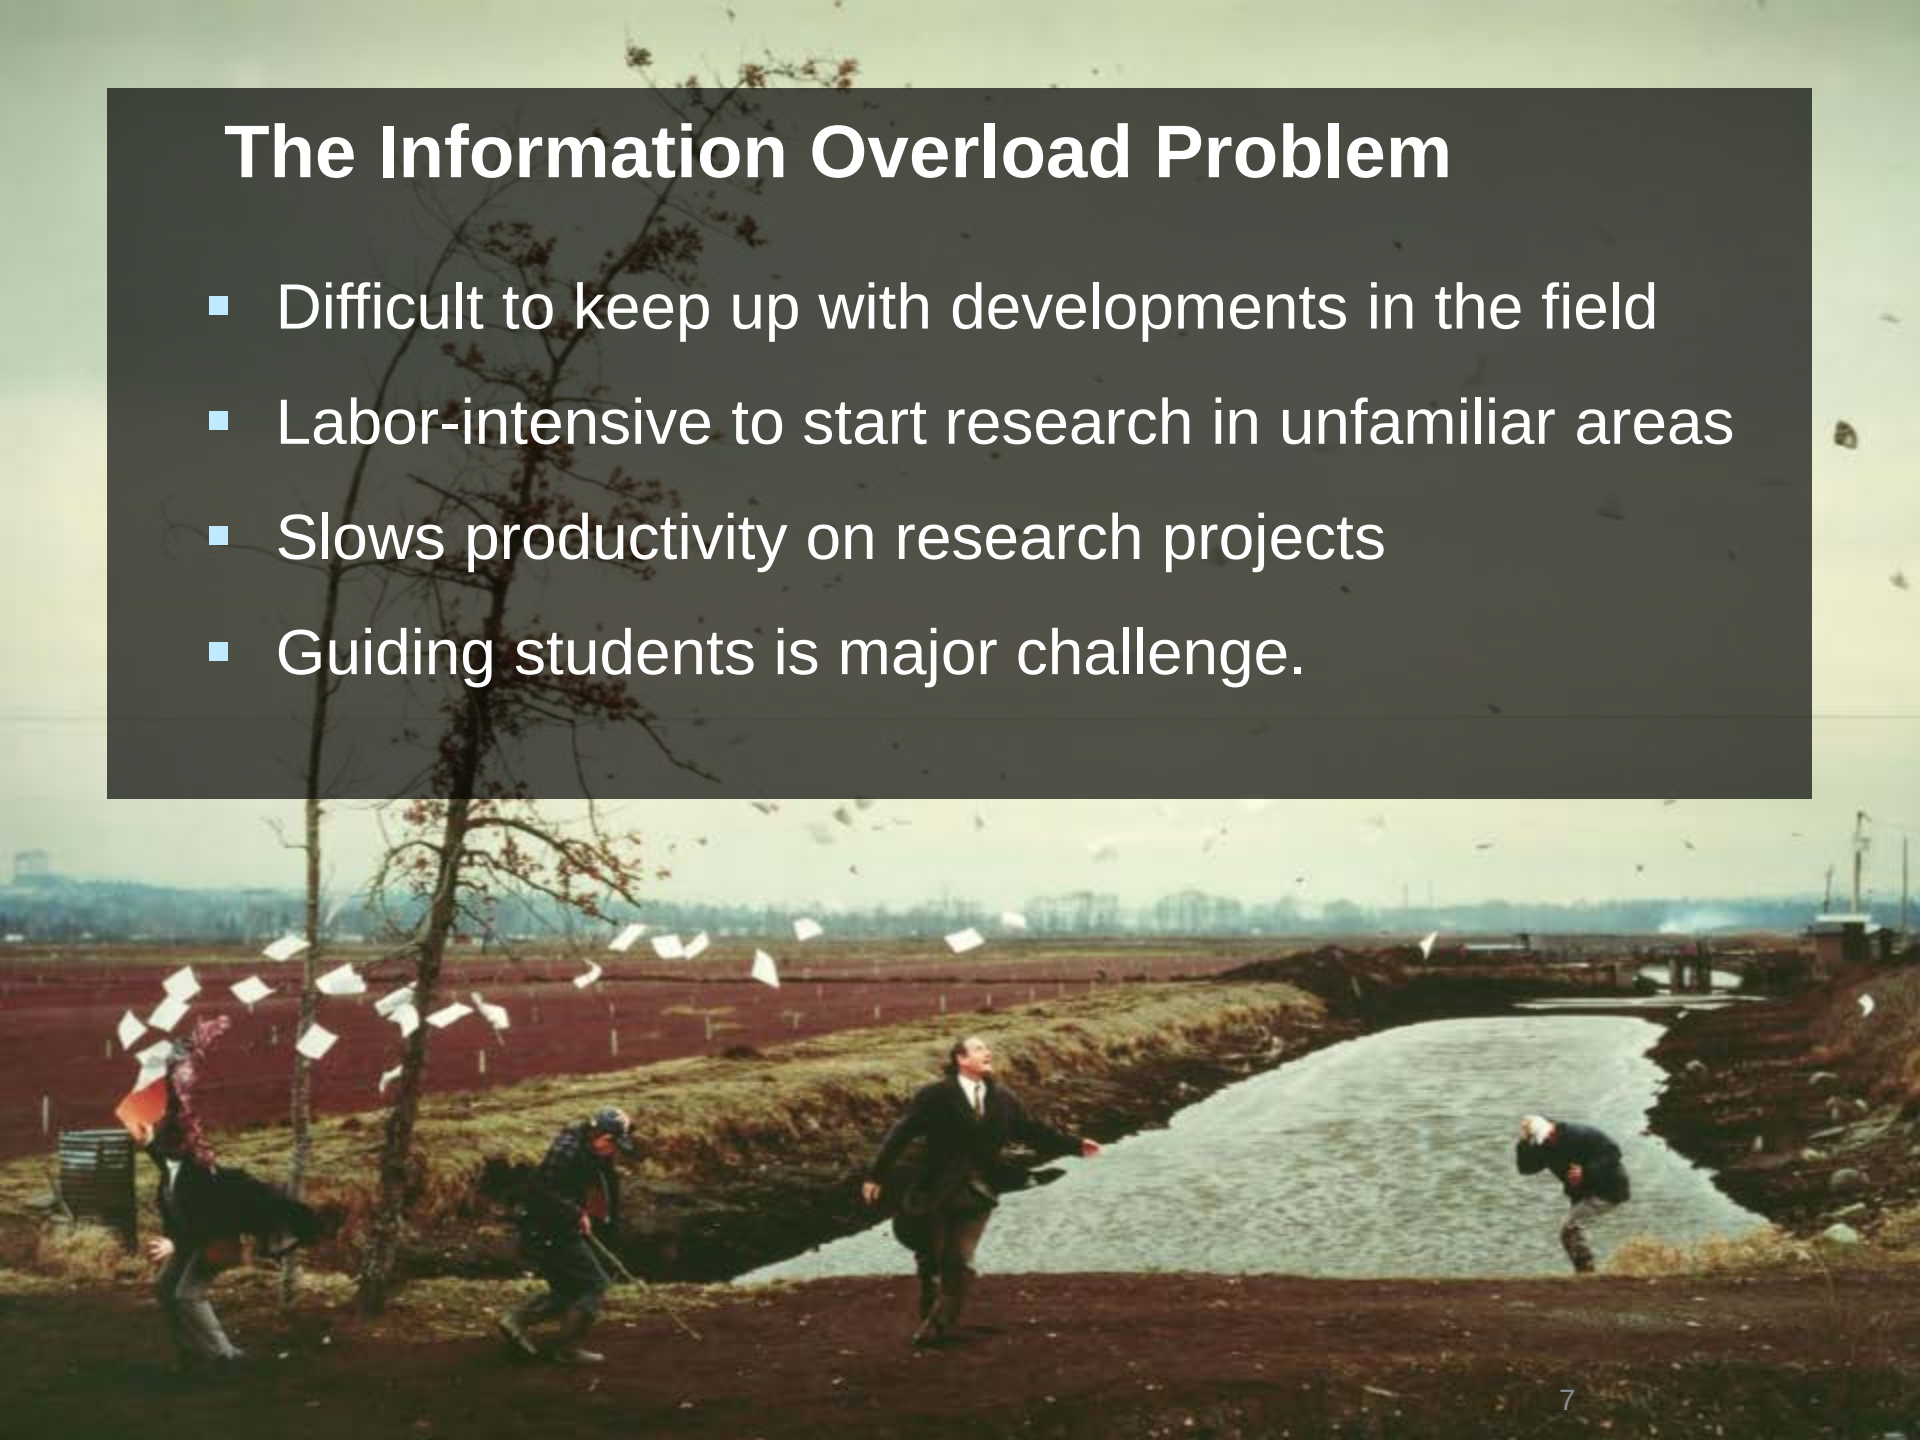
OXFORD UNIVERSITY PRESS IS A DEPARTMENT OF THE UNIVERSITY OF OXFORD. IT FURTHERS THE UNIVERSITY'S OBJECTIVE OF EXCELLENCE IN RESEARCH, SCHOLARSHIP, AND EDUCATION BY PUBLISHING WORLDWIDE.

OXFORD
UNIVERSITY PRESS

Resources supporting teaching and research. Special offers

The Information Overload Problem

- Difficult to keep up with developments in the field
- Labor-intensive to start research in unfamiliar areas
- Slows productivity on research projects
- Guiding students is major challenge.



Global network of research

OXFORD
UNIVERSITY PRESS

Where do O ... our Research Jo...

Each resource provides a vital step on the research journey, from quick fact checking, to reviewing the literature in a field, to keeping up to date with the latest research.

the home of the world's *most* trusted Handbook Series *is now* bigger *and* better

OXFORD
UNIVERSITY PRESS

WHAT IS OXFORD HANDBOOKS ONLINE?

Oxford Handbooks Online (OHO), the home of scholarly research reviews, is an outstanding collection of the best Handbooks in 14 subject areas and an **invaluable research resource**:

For Students

In-depth subject overviews and direction to further related content provide authoritative guidance for research

For Researchers and Faculty

Peer-reviewed online-first and online-only articles ensure that research is informed by the most recent developments

For Librarians

One source for both classic and newly-published works makes scholarship more accessible and discoverable – and streamlines library collections

14 SUBJECT AREAS AVAILABLE

- Archaeology
- Business and Management
- Classical Studies
- Criminology and Criminal Justice
- Economics and Finance
- History
- Law
- Linguistics
- Literature
- Music
- Philosophy
- Political Science
- Psychology
- Religion

Subscription: 40% discount & volume discount

OXFORD HANDBOOKS ONLINE IS NOW BIGGER AND BETTER

Authoritative Coverage

An Editor in Chief and Editorial Board of subject experts ensure accuracy, authority, and objectivity

Online-First Articles

Articles publish online immediately after peer review, delivering scholarly thought instantaneously

Robust Publishing Schedule

New articles are added monthly across all subject areas, ensuring research is always informed by current trends and developments

Intuitive Interface

Modern, sophisticated functionality and new user tools respond to the evolving needs of a rapidly-shifting online environment

Personalization Features

Researchers can build a personal archive of articles, searches, citations, and preferences -- which can then be shared through a host of social media tools

Efficient Search

Abstracts and keywords at a Handbook and article level, in combination with deep tagging and XML data, make it easier for users to find exactly the content they need

Discoverability Tools

MARC21 records, OpenURL, full text DOIs, and connections to the Oxford Index increase discoverability and seamlessly link users to the library's catalog

Research Skills Master Programme

About the *Research Skills Master Programme*

The *Research Skills Master Programme* is a comprehensive training resource for researchers, consisting of 18 online courses. It provides PhD students, junior postdoctoral researchers and early-career research academics with a broad range of essential skills, from writing for academic purposes to entrepreneurship and commercialisation.

The courses are designed to improve the effectiveness of researchers and also equip students with the skills they will need in their careers, whether inside or outside of academia. This updated programme features a brand new design, full compatibility with mobile devices, revised content and a series of new pedagogical features including nearly 200 hours of supplementary online and offline activities to engage participants and consolidate learning.

Available with Epigeum *Impact*

IMPACT: evaluation tools and analytics

1. Who are your trainees?
2. Did they learn anything?
3. Has program changed climate?
4. How does your institution measure up?

Getting published in science

Getting published in the sciences

Overview

Publication date: Oct 2013
Core activities: 2 hours
Additional activities: 11 hours

This course aims to encourage researchers in the sciences to publish and guide them through the processes involved in publishing an academic article, including identifying when and where to publish, how to write and prepare a paper for submission and the peer review process. The course may also be helpful for researchers in the social sciences using experimental research methods.

Syllabus

- ✔ Module 1: The publishing landscape
- ✔ Module 2: Getting ready to publish
- ✔ Module 3: Submitting your paper
- ✔ Module 4: The editorial process
- ✔ Module 5: Tips from the top

Author, revised and first editions: Dr Keith Hart
Senior Research Fellow, Central Biotechnology Services, School of Medicine, Cardiff University

Reviewer, first edition: Professor Peter Barnes
Professor of Thoracic Medicine and Head of Airway Disease at the National Heart and Lung Institute, Imperial College London

Learning Solutions epigeum | OXFORD UNIVERSITY PRESS

Research methods in science

Research methods in the sciences

Overview

Publication date: Oct 2013
Core activities: 3 hours
Additional activities: 7 hours

This course aims to support doctoral and postdoctoral researchers undertaking independent research in the sciences. The course provides guidance on the different research processes, from the early stages of framing a research question, through conducting the research, to writing up findings and publication.

Syllabus

- Module 1: What is science?
- Module 2: Identifying and formulating the research question
- Module 3: Evaluating research questions
- Module 4: Designing and planning your research
- Module 5: Reflection and communication

Author, revised edition: Dr Keith Hart
Senior Research Fellow, Central Biotechnology Services, School of Medicine, Cardiff University

Author, first edition: Dr Gordon Rugg
Senior Lecturer, School of Computing and Mathematics, Keele University

Author, first edition: Dr Nick Savdalis
Senior Lecturer Department of Surgery & Cancer, Imperial College London

Author, first edition: Dr Muttukrishnan Rajarajan
Course Director, Multi-Media Internet Systems Engineering, City University London

Author, first edition: Professor Paul Langford
Professor of Paediatric Infectious Diseases, Imperial College London

Reviewer, first edition: Professor Chris Thomas
Professor of Molecular Genetics, School of Biosciences, University of Birmingham
