This new edition of Health at a Glance presents the most recent comparable data on the performance of health systems in OECD countries. Where possible, it also reports data for partner countries (Brazil, China, Colombia, Costa Rica, India, Indonesia, Latvia, Lithuania, Russian Federation and South Africa). Compared with the previous edition, this new edition includes a new set of dashboards of health indicators to summarize in a clear and user-friendly way the relative strengths and weaknesses of OECD countries on different key indicators of health and health system performance, and also a special focus on the pharmaceutical sector. This edition also contains new indicators on health workforce migration and on the quality of health care.

OECD

13 Oct 2016
 DOI: 10.1787/itcs-v2016-5-en | Hide / Show Abstract

This reliable source of yearly data covers a wide range of statistics on international trade of OECD countries and provides detailed data in value by commodity and by partner country. Each of the first five volumes of International Trade by Commodity Statistics contains the tables for six countries, published in the order in which they become available. The sixth volume also includes the OECD country groupings OECD Total and EU28-Extra. Detailed tables relating to the Harmonised System HS 2012 classification, are published for Sections and Divisions (one- and two-digit).
