Продукт дня: Журнал "Unmanned Systems" издательства World Scientific

Беспилотная система — машина или устройство, оснащенное необходимыми блоками обработки данных, датчиками, системами автоматического управления и связи и способное выполнять задачи автономно, без вмешательства человека. К беспилотным системам относятся беспилотные летательные аппараты, наземные роботы, подводные исследователи, спутники и другие нестандартные конструкции. Unmanned Systems стремится охватить все темы,

связанные с разработкой автоматических систем, которые включают передовые технологии в беспилотных аппаратных платформах (воздушных, наземных, подводных и нешаблонных платформах), беспилотных программных комплексах, энергетических системах, моделирование и управление, системы связи, системы компьютерного зрения, зондирование и обработку информации, навигацию и планирование пути, вычисления, машинный интеллект, искусственный интеллект и тематические исследования инновационных приложений.

Open Access (OA) - Открытый доступ к научным публикациям: определение

Бесплатный, немедленный онлайн-доступ к результатам исследований с правами на совместное и повторное использование, без финансовых, юридических или технических барьеров.

Определение было введено Будапештской инициативой по открытому доступу в 2002 году

Budapest Open Access Initiative

In response to the growing demand to make research free and available to anyone with a computer and an internet connection, a diverse coalition has issued [new guidelines](#) that could usher in huge advances in the sciences, medicine, and health.

The recommendations were developed by [leaders of the Open Access movement](#), which has worked for the past decade to provide the public with unrestricted, free access to scholarly research—much of which is publicly funded. Making the research publicly available to everyone—free of charge and without most copyright and licensing restrictions—will accelerate scientific research efforts and allow authors to reach a larger number of readers.

The recommendations are the result of a meeting organized by the Open Society Foundations to mark the [tenth anniversary of Budapest Open Access Initiative](#), which first defined Open Access. The recommendations include the development of Open Access policies in institutions of higher education and in funding agencies, the open licensing of scholarly works, the development of infrastructure such as Open Access repositories and creating standards of professional conduct for Open Access publishing. The recommendations also establish a new goal of achieving Open Access as the default method for distributing new peer-reviewed research in every field and in every country within ten years' time.

[Translations of the recommendations](#) have already been made in several languages, with more to follow.

For more on the recommendation, see [BOA1.10 Translations](#) [press release](#) as well as a [blog post](#) by Peter Suber which provides additional background on the Open Access movement.

Основные модели открытого доступа

- **Gold Open Access/Золотой открытый доступ** - публикация, которая постоянно и немедленно бесплатна для любого, кто может прочитать и поделиться ею на сайте издателя. Gold OA обычно включает в себя оплату публикации автором.
- **Green Open Access/Зеленый открытый доступ** - самоархивирование, при котором автор делает статью общедоступной, помещая ее в хранилище. Во многих случаях архивная версия является принятой к публикации рукописью автора, и может применяться эмбарго, в зависимости от политики OA издателя и спонсора.
- **Platinum Open Access/Платиновый открытый доступ** - публикация, которая является бесплатной для авторов и читателей, часто финансируется учреждением или обществом. Его также иногда называют алмазным открытым доступом

Открытые публикации в научных и профессиональных журналах: зачем они издателю, автору, библиотеке, читателю?

- **Издатель:** полностью или частично обеспечить финансирование журнала авторами или спонсорами
- **Автор:** представить открытую публикацию широкой аудитории и повысить свои наукометрические показатели
- **Библиотека:** предоставить читателю возможность доступа к источникам, отсутствующим в фонде
- **Читатель:** получать профильную информацию по разовым или постоянным запросам

Why Plan S

Open Access is Foundational to the Scientific Enterprise

Universality is a fundamental principle of science (the term "science" as used here includes the humanities): only results that can be discussed, challenged, and, where appropriate, tested and reproduced by others qualify as scientific. Science, as an institution of organised criticism, can therefore only function properly if research results are made openly available to the community so that they can be submitted to the test and scrutiny of other researchers. Furthermore, new research builds on established results from previous research. The chain, whereby new scientific discoveries are built on previously established results, can only work optimally if all research results are made openly available to the scientific community.

Publication paywalls are withholding a substantial amount of research results from a large fraction of the scientific community and from society as a whole. This constitutes an absolute anomaly, which hinders the scientific enterprise in its very foundations and hampers its

About WorldScientificOpen

At World Scientific, we are committed to disseminating high quality research to as wide an audience as possible. Leveraging on the open access movement, WorldScientificOpen gives you unprecedented access to top-tier journals, books and proceedings.

WorldScientificOpen is in full compliance with the latest open access mandates so authors can ensure their research is freely available online, freely redistributed and reused.

Benefits of World Scientific Open Access

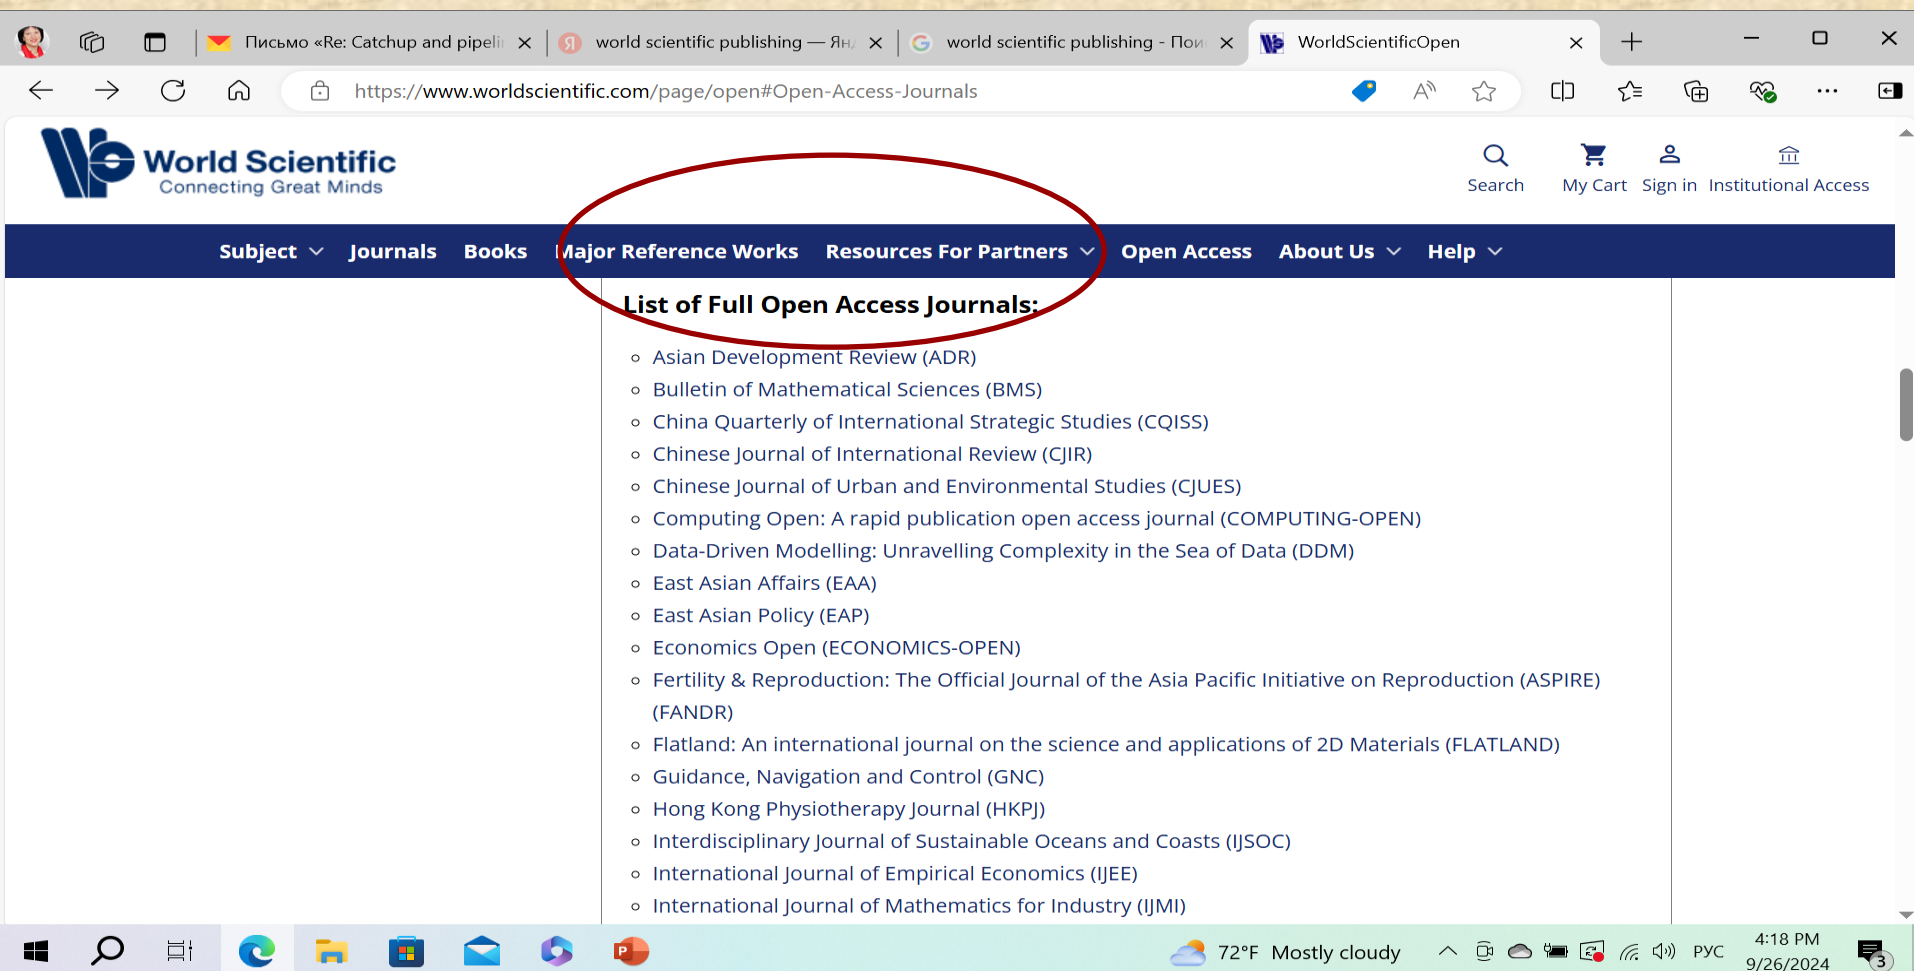

- Accepted articles can choose to be on **fast track publishing**
- Higher visibility and discoverability** of the published articles on search engines and the major indexing services, with the possibility of being highly cited
- Copyright of the articles are retained by the authors (unless stated otherwise)
- Published articles
 - are fully peer reviewed

Журналы, содержащие открытые полнотекстовые статьи:

- 1. Полностью открытые (Open Access):** все содержимое журнала доступно без ограничений
- 2. Гибридные (Hybrid):** подписной журнал с отдельными статьями в открытом доступе (оплаченном авторами)
- 3. Трансформативные (Transformative):** гибридный журнал, в котором количество открытых статей постепенно увеличивается с целью перехода в формат **Open Access**
- 4. Открытые подписчиками (Subscribe to Open, S2O):** журнал, который при достаточном количестве подписчиков становится открытым в текущем году

Transformative Journals

What is a Transformative Journal?

A Transformative Journal is a subscription or hybrid journal that has committed to transitioning to fully Open Access. Authors can choose between gold Open Access or subscription publication, based on their preferences, funder or institutional requirements, and Article Publication Charge (APC) funding availability.

List of Transformative Journals under World Scientific

World Scientific is committed to transiting the following journals to fully Open Access journals and meeting the [Transformative Journal Criteria](#). The Open Access share of the journal will increase each year and flip to full Open Access once 75% threshold has been met.

Two journal covers are displayed at the bottom of the page:

The main content area features the title "Subscribe to Open for ASM Journals" and a sub-section titled "What is Subscribe to Open (S2O)?". To the left of this section is a list of links: [What is Subscribe to Open \(S2O\)?](#), [Journals Under S2O](#), [Benefits of S2O](#), [How S2O Works](#), [S2O Frequently Asked Questions](#), and [Subscription Packages and Pricing Options](#). The S2O logo is a circular emblem with "S2O" in the center, "SUBSCRIBE TO OPEN" at the top, and "EQUITABLE OPEN ACCESS" at the bottom. Below the logo, it states "ASM IS A PARTICIPATING MEMBER OF THE RAPIDLY EXPANDING S2O COMMUNITY OF PRACTICE". The main text explains that starting in 2025, ASM will adopt a S2O model for its six primary research journals, aligning with its mission of disseminating high-impact research. It details that under S2O, content accessibility depends on subscriber support, and a minimum sustainability target is established. If met, content is open access; if not, it remains subscriber-only. The S2O model distributes costs across authors, funders, and institutional subscribers.

What is Subscribe to Open (S2O)?

ASM IS A PARTICIPATING MEMBER OF THE RAPIDLY EXPANDING S2O COMMUNITY OF PRACTICE

Starting in 2025, ASM will adopt a Subscribe to Open subscription model for its six primary research, subscription-based journals. This aligns with ASM's mission of disseminating high-impact research and accelerating scientific advancement globally.

Under S2O, the accessibility of ASM's previously subscriber-only content will depend on continued support from subscribers. ASM will establish a minimum sustainability target each year to fund the journals. If the target is met, that year's content will be made open access. If the target is not met, the content will remain available only to subscribers.

The S2O model distributes costs across authors, funders, and library or institutional subscribers, ensuring a balanced approach to funding. This framework provides ASM a practical path to converting these journals to open access without relying on article processing charges (APCs) or

Описание издательской модели S2O на сайте American Society for Microbiology (продолжение)

The screenshot shows a web browser window with the URL <https://journals.asm.org/s2o>. The page title is "How S2O Works". The content is organized into a table with two columns: "Sustainability Target is Met" and "Sustainability Target is Not Met". Below the table, there is a section for "Page charge and supplemental material fee discounts" with a list of three bullet points. At the bottom of the page, there is a red button that says "BECOME AN ASM MEMBER".

Sustainability Target is Met	Sustainability Target is Not Met
Current year volume published open access.	Current year volume remains behind a paywall.
All articles from all authors are published open access.	Only articles from authors at subscribing institutions will be published open access.
Authors do not pay APCs.	
Page charge and supplemental material fee discounts:	
<ul style="list-style-type: none">• 25% discount for authors at subscribing institutions.• 50% discount for ASM members.• 63% discount for authors who are both ASM members and at subscribing institutions.	

[BECOME AN ASM MEMBER](#)

Как помочь читателю в поиске полнотекстовых открытых статей?

- 1. Полностью открытые журналы:** списки и каталоги открытых журналов на сайтах издателей и агрегаторов
- 2. Гибридные и трансформативные журналы:** поиск с фильтром «только открытый контент» на издательских сайтах или через дискавери-сервисы
- 3. Открытые подписчиками журналы:** поскольку издательское решение принимается каждый раз на текущий год, реальны те же методы поиска, что и для гибридных и трансформативных журналов

1. Экран поиска открытых журналов на сайте DOAJ – Directory of open access journals [Directory of Open Access Journals – DOAJ](https://doaj.org)

The screenshot shows the DOAJ website's search interface. At the top, there is a navigation bar with the DOAJ logo (three overlapping circles) and the text "DOAJ OPEN GLOBAL TRUSTED". To the right of the logo are links for "SUPPORT" (with a heart icon), "APPLY" (with a dropdown arrow), and "SEARCH" (with a magnifying glass icon). Below the navigation bar, the text "DIRECTORY OF OPEN ACCESS JOURNALS" is displayed in a smaller font. The main heading reads "Find open access journals & articles." Below this heading, there are two radio buttons: "Journals" (selected) and "Articles". A search input field is present, with a dropdown menu set to "In all fields" and a yellow "SEARCH" button to its right. On the right side of the page, there is a dark overlay menu with three options: "Institutions and libraries", "Publishers", and "Institutional and library supporters". At the bottom of the page, five statistics are listed in a row, separated by vertical lines: "80 LANGUAGES", "135 COUNTRIES REPRESENTED", "13,753 JOURNALS WITHOUT APCS", "20,939 JOURNALS", and "10,473,896 ARTICLE RECORDS". The browser's address bar shows "https://doaj.org" and the page number "1". The system tray at the bottom right shows the time "5:17 PM".

to Open?
What's the
Difference?
Publish with Us
Connect with Us
Contact

We are piloting the Subscribe to Open (S2O) business model with two journals, [Pediatric Neurosurgery](#) and [Developmental Neuroscience](#), as part of our ongoing drive to support [the transition to Open Access \(OA\)](#). S2O is a alternative way to move journals to OA, alleviating some of the challenges that come with Gold OA. Where Gold OA relies on payment for publishing in the form of Article Processing Charges (APCs) by the authors or their institutions, S2O makes use of the existing subscription base, funds and infrastructure to make journals free to read and share as well as to publish in. Unlike Gold OA journals, which are continually OA, the OA status of S2O journals is decided volume by volume, early every year (depending on the level of subscriptions). S2O was originally developed by the publisher Annual Reviews and has been adopted by a growing number of publishers, including Karger, who are exchanging ideas in the S2O Community of Practice.

Our S2O pilot will expand in 2025 with two more journals, [European Addiction Research](#) and [Neurodegenerative Diseases](#).
